

Civil War Slave Compensation Claims: 5th and 6th U.S. Colored Cavalry (USCT) Index of Claims by Slave Owners' Names

This index was created by volunteer Anthony F. Kardis and Staff of the Special Collections Department. It is based upon the names of soldiers and former slave owners extracted from slave compensation claims found in Compiled Service Records of U.S. Colored Troops (USCT) for the 5th and 6th Cavalry which are available on microfilm in Special Collections. These films are part of the [Julius K. Hunter and Friends African American Research Collection](#).

Organization of the index is alphabetical by the name of the former slave owner, then by the owner's residence. There is also an index [by the soldiers' names](#). The Special Collections' Web site contains indexes for other USCT regiments and more information about [Civil War Slave Compensation Claims](#).

Source: *Compiled Military Service Records of Volunteer Union Soldiers Who Served With the United States Colored Troops: 1st through 5th United States Colored Cavalry, 5th Massachusetts Cavalry (Colored), 6th United States Colored Cavalry.* Microfilm publication M1817, 107 rolls. Washington D.C.: National Archives, 1997.

Finding the Record

Each entry includes the National Archives (NARA) microfilm publication number, roll number, and beginning frame number. To find the claim, locate the microfilm set, the specified roll, and then advance to the designated "beginning frame," which will be the first document of that soldier's compiled service record. (The frame number is the number which appears between the upper edge of the film and the top of each document.) To then find the slave compensation claim, read through to the end of the soldier's service record where documents for such claims consistently appear.

- When the name of a recruit or slave owner was spelled more than one way, entries have been made for variations.
- A question mark in the column marked "Beg. Frame" (beginning frame number) indicates that, for that record, the frame number was unreadable. Remember, the Compiled Service Records appear on the film in alphabetical order by name of the soldier, so when the frame number is not listed, locate the record by the soldier's name.

[Photocopies](#) of material listed in this index may be requested from Special Collections.
