

## Mid-Century Modern genealogy St. Louis research after 1940

Sources offering genealogical information for the 19th and early 20th centuries are relatively common in print or microfilm formats in libraries, or digitally online. The Special Collections Department is receiving more and more requests related to mid-20th century research, however.

Sources for this period can be a challenge to find. The 1940 U.S. Census is the latest for which records are open, and privacy laws otherwise limit access to more recent personal information. Nevertheless, sources do exist that satisfy some, if not all, queries for information during this period. The following list focuses on post-1940 sources for St. Louis genealogical and historical information held by the Special Collections Department, along with a few tips for finding information elsewhere.

### Vital information (births, marriages, deaths)

#### Civil records of birth

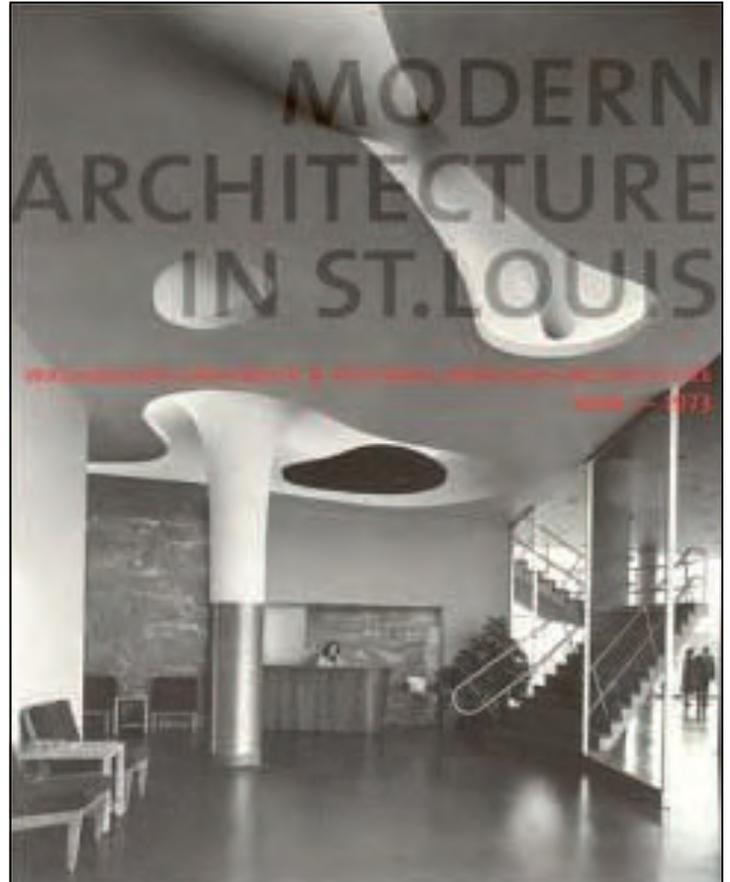

Birth records are closed after 1910 and only available through official state agencies. Contact the [State of Missouri Department of Health and Senior Services](http://tinyurl.com/7zlfbk) <<http://tinyurl.com/7zlfbk>>. [The St. Louis City Recorder of Deeds Office](http://tinyurl.com/otwyzr9) <<http://tinyurl.com/otwyzr9>> can provide official copies of birth certificates issued in any Missouri county.

#### Civil records of marriage (microfilm)

- St. Louis City, 1806 – 1965 (includes St. Louis County up to 1876)
- St. Louis County, 1877 – 1980.

#### Civil records of death

Missouri death certificates from 1910 through the year that records are 50 years old (1963 at this writing) are online at the [Missouri Secretary of State's website](http://tinyurl.com/) <<http://tinyurl.com/>

Whether researching 20th-century genealogy or subjects such as St. Louis architecture, the Special Collections Department can help. The book “Modern Architecture in St. Louis: Washington University and Postwar American Architecture, 1948-1973,” is on the shelf at call no. R 728.9778 M689.

Records less than 50 years old must be requested from the state of Missouri or the St. Louis City Recorder of Deeds (see information under “birth records,” above).

#### Coroner's records (microfilm)

Besides date of death and place of burial, coroner's records can give details of a person's life. Coroner's records are usually only created in cases where the death was unusual or suspicious. The department has St. Louis County Coroner's Records, 1940 – 1990. CONTINUED ON PAGE 3

**Cemetery records (microfilm and electronic)**

Four volumes of burial indexes created by the St. Louis Genealogical Society are available on public PCs in the Special Collections Department. Indexes cover burials in almost all St. Louis City and County cemeteries into the 21st Century and include at least the name of the deceased, the burial date, and the cemetery where buried. The department also has many cemetery records on microfilm. [See the listing on the library's website for more holdings](http://tinyurl.com/n7dcjp9) <<http://tinyurl.com/n7dcjp9>>.

**Church records (microfilm)**

Church records are an excellent source of birth (baptism), marriage and death information, as well as other data.

**■ CATHOLIC CHURCH RECORDS**

The department has all records of parishes in the Archdiocese of St. Louis that have been made available on microfilm. Records usually include baptisms up to about 1930 (later records are restricted by the archdiocese). Marriage, first communions, confirmations, and death records are generally included up to 1993.

**■ PROTESTANT CHURCH RECORDS**

Department holdings include the records for many St. Louis-area Lutheran and United Church of Christ (UCC) congregations. Records commonly include baptisms, confirmations, marriages, and deaths. Coverage varies depending on when the records were filmed and what was made available for filming. See the library's website for [list of holdings for Lutheran](http://tinyurl.com/a8xkqsv) <<http://tinyurl.com/a8xkqsv>> and [UCC](http://tinyurl.com/atmkxfr) <<http://tinyurl.com/atmkxfr>> congregations.

The department also has records on microfilm for a number of other Protestant congregations covering the period under discussion:

- Centenary Methodist Church, St. Louis, 1871 – 1969
- Kirkwood Methodist Church, 1869 – 1965
- Lewis Memorial Methodist Church, Crescent, St. Louis County, Missouri, 1893-1968
- Second Baptist Church, Clayton and McKnight Roads, St. Louis, 1827-1953

- Westminster Presbyterian Church, St. Louis, 1954 – 2006

## THIS MONTH IN SAINT LOUIS HISTORY

### March 1877

## The Great Divorce

Following the Civil War, city business leaders began to resent statutes passed by the Missouri legislature that empowered county government and increased the tax burden on citizens. A special board of freeholders proposed to expand the city boundaries (city limits at the time reached just beyond Grand Boulevard), separate the city entirely from the county, and create a city home-rule charter. The new boundary would more than triple the city's area, taking in Forest Park, Carondelet and O'Fallon Parks. Opposition came from rural interests and ward politicians, but the scheme was put to a vote on Aug. 22, 1876. Citizens defeated the measure by a narrow margin, with those outside of city limits overwhelmingly vetoing the measure. Separatists took the results to court, however. After more than 5,000 ballots were disqualified, the measure passed by a margin of only 1,253 votes, and the city was declared independent on March 5, 1877. Despite numerous attempts to reunite the city and county beginning in the 1880s, the Great Divorce remains in effect.

## NEW IN THE SPECIAL COLLECTIONS DEPARTMENT

### New book list is now on the web!

Beginning with this issue of PastPorts, a list of new genealogy and local history books received during the previous month will appear on the [library's web-site](#) and be accessible through a web link. The list will no longer be published in the newsletter. View the list by clicking on the graphic, above, or by typing the URL into your browser: <<http://webpac.slcl.org/search~S32?/ftlist^bib30,1,0,34/mode=2>>. Books with call numbers not beginning with "R" are listed in Dewey Decimal order first, followed by those with call numbers beginning with "R."

Book titles can be selected from the online list and emailed, printed, or saved to a file. An additional feature for library

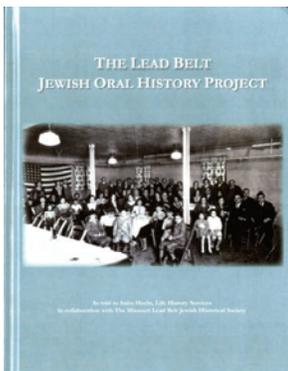

card holders is the ability to login to their library accounts and save titles to a customized list.

A "New Genealogy and Local History" link is also posted on the online catalog main page, as follows:

### The Lead Belt Jewish Oral History Project by Anita Hecht

**Life History Services, 2012;  
175 pp. R 977.8 L434 and  
circulating copy**

Anita Hecht collected oral histories of the descendents of Jews who settled in the southern Missouri lead-mining district, known as the "lead belt." When the St. Joseph Lead Company opened a mine in the early part of the 20th century, it drew miners from all over the Midwest. Jewish immigrants living in St. Louis moved to the area to establish grocery, dry goods and hardware stores.

Hecht interviewed nine narrators that remain from the Jewish community of the southern Missouri lead mining belt. "Their stories reflect both a large tale of the Jewish immigrant experience in the rural Midwestern United States, and

their particular tales of family journeys, connections, adherence to Jewish tradition and family values, and assimilation to life in the New World." The stories are generously interspersed with photos of families, their businesses, and the surrounding community. St. Louis readers will recognize many family names mentioned in this book.— *SC Staff*

"A Shape in Time and Space: Tracking the Necked Discoid Gravemarker," Michael McNerney, speaker

To foster a deeper understanding of the South's cultural patterns, the editors have organized this reference book around twenty-four thematic sections, including history, religion, folklore, language, art and architecture, recreation, politics, the mythic South, urbanization, literature, music, violence, law, and media. The life experiences of southerners are discussed in sections on black life, ethnic life, and women's life. Throughout, the broad goal is to identify the forces that have supported either the reality or the illusion of the southern way of life -- people, places, ideas, institutions, events, symbols, rituals, and values. The Encyclopedia of Southern Culture was developed by the Center for the Study of Southern Culture at the University of Mississippi. Contributors to the volume include historians, literary critics, sociologists, anthropologists, geographers, linguists, theologians, folklorists, architects, ecologists, lawyers, university presidents, newspaper reporters, magazine writers, and novelists. — *Publisher's website*

### Encyclopedia of Appalachia

Rudy Abramson and Jean Haskell, eds.

University of Tennessee Press, 2006; 1832 pp.  
R 974 E56

The Encyclopedia details subjects traditionally associated with Appalachia—folklore, handcrafts, mountain music, foods, and coal mining—but goes far beyond regional stereotypes to treat such wide-ranging topics as the aerospace industry, Native American foodways, ethnic diversity in the coalfields, education reform, linguistic variation, and the contested notion of what it means to be Appalachian, both inside and outside the region. Researched and developed by the Center for Appalachian Studies and Services at East Tennessee State University, this 1,860-page compendium includes all thirteen states that constitute the northern, central, and southern subregions of Appalachia—from New York to Mississippi. With thorough, detailed, yet accessible entries on everything from Adventists to zinc mining, the Encyclopedia of Appalachia is an indispensable one-stop guide to all things Appalachian.—*Publisher's website*
