

farm? Did he own it or rent? What crops did he raise? How many bushels of each did he harvest? Did he have cattle, pigs, or chickens? Did he have slaves? A small vegetable patch behind the house did not count as a farm. To qualify as a farmer/planter, your ancestor had to produce at least \$100 in farm goods annually for the 1850 and 1860 censuses, for the 1870 and 1880 censuses, at least \$500 or more. The 1850 agriculture census asked forty-six questions, the 1860, forty-eight, the 1870, fifty-two, and the 1880, one hundred.

Defective, Dependent, and Delinquent

Did you know that Alexander Graham Bell's wife never heard the phone ring? She was deaf! If you also had a deaf ancestor, you need to take a look at the Deaf Marriages and Hearing Relatives schedules. These were taken to determine if deafness was hereditary. If children were born to a marriage, were all, some, or none of them also deaf?

There are seven schedules in the Defective, Dependent, and Delinquent (DDD) schedule (figure 2): blind; deaf-mutes; homeless children; idiots [mentally handicapped]; inhabitants in prison; insane; and pauper and indigent. A slash mark in the population schedule in a column labeled blind, deaf and dumb [mute], idiotic [mentally handicapped], insane, or maimed, crippled, bedridden, or otherwise disabled indicates more information in a DDD schedule is available. If your ancestor was missing from the 1880 population schedule, he or she might have been institutionalized in an asylum, or in prison. Check the DDD.

Indian Census

Many Americans are interested in proving a link to an Indian/Native American ancestor, which is often diffi-

cult to do because there are few records showing the original Native American name and its English translation or equivalent. Although the available dates may be too recent for some researchers, check the U. S. Indian Census Rolls, 1885–1940 (figure 3) to see if your Native American ancestor appears there. Information should include the original name and what the name was changed to.

Industrial

Although most Americans were farmers in the 19th century, there were those who had businesses of various types, sometimes related to farming and also belonging to a farmer, such as a grist mill or a sawmill over a waterway on the farm, or a tanning shop or cheese shop in conjunction with cattle raised for the slaughterhouse. If he was not a farmer, he may have been a blacksmith, furniture maker, or

The object of this Supplemental Schedule is to furnish material not only for a complete enumeration of children in institutions, but for an account of their condition. It is important that every inquiry respecting each case be answered as fully as possible. Enumerators will, therefore, after making the proper entries upon the Population Schedule (No. 1), transfer the name (with Schedule page and number) of every child found in any institution designed for the care of poor or homeless children, or in any poor-house or other asylum for the destitute, from Schedule No. 1 to this Special Schedule, and proceed to ask the additional questions indicated in the headings of the several columns. Special attention is called to the questions respecting the child's antecedents, which are designed to bring out the proportion of children in institutions who belong to the respectable and to the vicious classes severally.

and sexes in the slave schedule to see if you may have found your family.

How civilized was the place where your ancestors lived? Did they have libraries? Were there schools? If so, what type (parochial, private, public, grammar school, high school, college, seminary)? What periodicals (newspapers, journals) were published, how often (daily, weekly, monthly), and what were their affiliations (political, financial, religious, literary)? What religious institutions were there? How large were they? How many people were in prison? What were salaries like? To find out the answers to these questions and more, look at the Social Statistics Schedules for 1850–1870.

Veterans

Finally, did you have an ancestor who served for the Union during the Civil War? Searching the Veteran’s Schedule (figure 9, page 6) will tell you his name (or his widow’s name if deceased), rank, company, regiment, dates of enlistment and discharge, length of service in years, months and days, current address, disabilities and remarks. Sometimes, Confederate soldiers will also appear in this schedule.

Many special census schedules are available on the *Ancestry* and *HeritageQuest* databases. *Ancestry Library Edition* and *Heritage Quest* can be used at any St. Louis County Library location. Residents living in the St. Louis Metropolitan Area can access *Heritage Quest* at home with a valid St. Louis County Library card.

Special schedules for Missouri, Illinois and a few other states are available on microfilm in the History & Genealogy Department. See the online “[Microfilm and Microfiche Location Guide](https://bit.ly/2FzMP3F)” <<https://bit.ly/2FzMP3F>> for holdings.

Tier 4 to open permanently after collection reorganization

The History & Genealogy (H&G) staff is in the process of rearranging the department's collection of 100,000 books to provide better access and make items easier to find. Materials will continue to be available for research while work is in progress.

The collection was originally contained within Tier 5 (top floor) of the library when the department opened in 1998. Its size doubled in 2001 when the library received the 25,000-item National Genealogical Society Collection. Limited space forced the staff to move periodicals and family histories to areas closed to the public and retrieve those items when requested by researchers.

When the library announced plans in 2009 to build a new Family History Center, staff considered the continued shifting of lesser-used materials from Tier 5 to the staff-only area on Tier 4 (the floor below) as an

acceptable short-term solution to the continual space problem. Building plans fell through, however, and ten years of waiting and growing has fostered disorder and removed a growing number of books from the library's public space. H&G decided in 2018 that the time had come to put the collection back in contiguous Dewey Decimal order. A new building for the collection is expected to be completed in 2021.

The rearrangement process has been complex, requiring the staff to shift and re-shift shelves of books like a giant slide puzzle. By the time it is completed, the staff will have moved almost every book and transferred whole subject ranges between floors.

Tier 4 has opened to the public monthly since 2015 for "Explore Tier 4" weekends. When the project is completed by the beginning of May, the public will have open access to the entire book collection.

St. Louis County Library and Newspapers.com partner to digitize historical newspaper collections

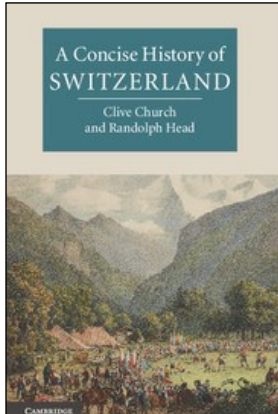

St. Louis County Library signed a cooperative agreement with Newspapers.com on March 13 to digitize newspaper microfilm in its History & Genealogy (H&G) collection. The project will for the first time provide online electronic access to the *St. Louis Globe-Democrat*, 1853–1963; *Anzeiger des Westens*, 1843–1898; and *Westliche Post*, 1857–1938. Other newspapers include those that once served St. Louis African American, French-speaking, and Jewish communities.

The library will ship more than 2000 microfilm reels to Newspapers.com's facilities in Utah for digitization beginning mid-May 2019. The project will take several months to complete. Although the microfilm will be temporarily unavailable to researchers during the digitization process, the project will ultimately deliver

unprecedented access. Researchers will be able to view newspaper images on the Newspapers.com website and search them by name or keyword. Newspapers.com can be used at St. Louis County Library locations and remotely by library cardholders living in the St. Louis metro area.

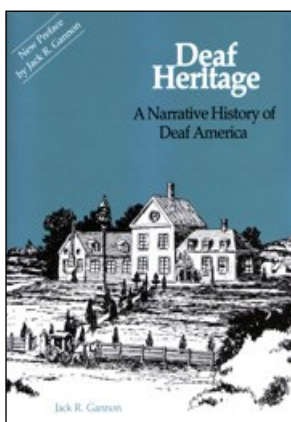

H&G is a nationally known research destination offering more than 100,000 print items and a large collection of microfilmed records. Collections include the St. Louis Genealogical Collection, the National Genealogical Society Collection, and the Julius K. Hunter and Friends African Research Collection. Newspapers.com is the largest online newspaper archive consisting of more than 482 million pages of historical newspapers from more than 11,700 newspapers.

NEW BOOK HIGHLIGHTS

**CLIVE H. CHURCH****A Concise History of Switzerland**Cambridge University Press,
2013

R 949.4 C561C

Despite its position at the heart of Europe and its quintessentially European nature, Switzerland's history is often overlooked within the English-speaking world. This comprehensive and engaging history of Switzerland traces the historical and cultural development of this fascinating but neglected European country from the end of the Dark Ages up to the present. The authors focus on the initial Confederacy of the Middle Ages; the religious divisions which threatened it after 1500 and its surprising survival amongst Europe's monarchies; the turmoil following the French Revolution and conquest, which continued until the Federal Constitution of 1848; the testing of the Swiss nation through the late nineteenth century and then two World Wars and the Depression of the 1930s; and the unparalleled economic and social growth and political success of the post-war era. The book concludes with a discussion of the contemporary challenges, often shared with neighbours, that shape the country today.—Publisher

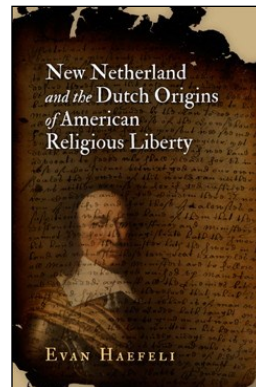

**JACK R. GANNON****Deaf Heritage: A Narrative History of Deaf America**Gallaudet University Press,
2013

R 305.9082 G198D

Deaf Heritage tracks the development of the Deaf community both chronologically and by significant subjects. The initial chapter treats the critical topics of early attempts

at deaf education, the impact of Deaf and Black deaf teachers, the establishment of schools for the deaf, and the founding of

Gallaudet College. Individual chapters cover the 1880s through the 1970s, mixing milestones such as the birth of the National Association of the Deaf and the work of important figures, Deaf and hearing, with anecdotes about day-to-day deaf life. Other chapters single out important facets of Deaf culture: American Sign Language, Deaf Sports, Deaf artists, Deaf humor, and Deaf publications. The overall effect of this remarkable record, replete with archival photographs, tables, and lists of Deaf people's accomplishments, reveals the growth of a vibrant legacy singular in American history.—

Publisher**EVAN HAEFELI****New Netherland and the Dutch Origins of American Religious Liberty**University of Pennsylvania Press,

R 323.44 H133N

The settlers of New Netherland were obligated to uphold religious toleration as a legal right by the Dutch Republic's founding document, the 1579 Union of Utrecht, which stated that "everyone shall remain free in religion and that no one may be persecuted or investigated because of religion." For early American historians this statement, unique in the world at its time, lies at the root of American pluralism.

With their deep tradition of tribal and kinship ties, Native Americans had lived for centuries with little use for the concept of an unwanted child. But besieged by reservation life and boarding school accultura-

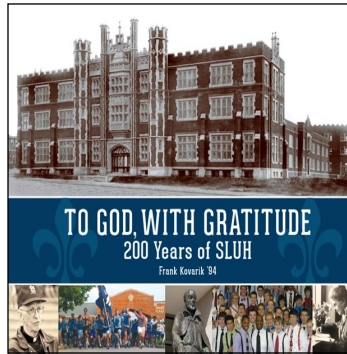

tion, many tribes—with the encouragement of whites—came to accept the need for orphanages.

The first book to focus exclusively on this subject, Marilyn Holt's study interweaves Indian history, educational history, family history, and child welfare policy to tell the story of Indian orphanages within the larger context of the orphan asylum in America. She relates the history of these orphanages and the cultural factors that produced and sustained them, shows how orphans became a part of native experience after Euro-American contact, and explores the manner in which Indian societies have addressed the issue of child dependency.—*Publisher*

PEGGY KRUSE
Old Jamestown across the Ages: Highlights and Stories of Old Jamestown, Missouri
 Kruse, 2018
 R 977.865 K94O

Old Jamestown's fascinating history includes an American Indian settlement associated with Cahokia Mounds, land grant holders of English and Scottish heritage who arrived in the late 1700s, German immigrant farmers who came during the 1800s, and prominent families who arrived in the mid 1900s. With only two miles separating the Missouri and Mississippi Rivers just north of Old Jamestown, it once provided connections from St. Louis and Florissant to St. Charles County and Illinois. Today Old Jamestown includes subdivisions and nonprofit organizations and retains much of its rural ambiance.—*Book jacket*

To God, with Gratitude: 200 years of SLUH
 Reedy Press, 2018
 R 977.866 K88T

From a bishop's vision for a school in a muddy river town in the early 19th century to a flagship institution for education and faith formation today, St. Louis University High School has lived an epic journey. To commemorate this 200-year odyssey the school is publishing *To God, with Gratitude*

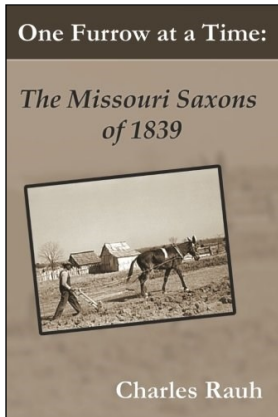

PastPorts is published by History & Genealogy at St. Louis County Library, located on Tier 5 of Library Headquarters.

by Frank Kovarik '94, a magnificent coffee-table book filled with hundreds of fascinating stories and seldom-seen images. The narrative reveals painful trials—like the near closing of the school in the 1820s—and glorious triumphs—like Anna F. Backer's teaming with the Jesuits to build a stand-alone campus. *To God, with Gratitude* offers the most complete history of SLUH ever assembled and is sure to captivate those whose lives have been touched by it.—*SLUH*

CHARLES RAUH
One Furrow at a Time: The Missouri Saxons of 1839
 Charles Rauh, 2015
 R 977.8694 R2440

In *One Furrow at a Time*, Charles Rauh recounts the German Saxon immigration to East Perry County, Missouri, in straightforward terms. Using research provided by The Lutheran Heritage Center, this volume

includes many previously unquoted, historical, eyewitness accounts to illuminate the realities of that immigration. Approachable and clear-cut, *One Furrow at a Time* is a history that can be enjoyed by lay people and historians alike.—*Book jacket*

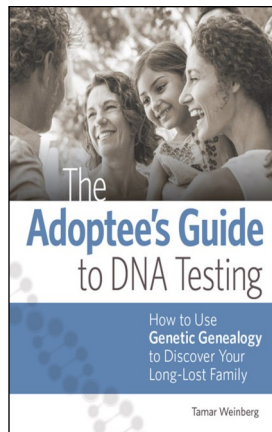

STEPHEN SZABADOS
Polish Immigration to America: When, Why, How and Where
 Self-published, 2016
 R 973.04918 S996P

When did your Polish ancestors immigrate, where did they leave, why did they leave, how did they get here? These are questions [to which] we all hope to find the answers.

This book discusses the history of Poland and gives some insights to possible answers to the questions about your ancestors' immigration. All three Polish partitions are covered and the material will hopefully clear-up your confusion why your Polish ancestors listed that they were born in other countries on early U.S. documents.

The book also presents brief histories of most of the ports that were used by Polish immigrants for departure from Europe and the ports where they arrived. Also covered are details of life in steerage during the voyage and the process of examination of the immigrants to gain admittance to the United States.—*Book jacket*

Barr & Widen Credit Guide

Did your ancestor pay his or her debts? In St. Louis, the *Barr & Widen Credit Guide* (R 977.866 B268) may shed new light on a person's financial state. The guide provides credit ratings for businesses such as "E" for "Excellent Credit," or "T" for "No Established Credit." Merchants, manufacturers, and contractors are listed alphabetically with their rating, address, and a brief description of the business (e.g., "coal," "grocer"). A copy of the key defining these codes is on the first page but may be found on the back cover in other copies.

A list of individuals for whom a credit report was available follows the business listings. The ratings for individuals differ from those of the business ratings and

may reveal interesting information about a family, including "moves often," "is said to live beyond income," and "considerably in debt." The key to individual listings is not available in the library copy but is available to view online and on microfilm.

In addition to ratings for business owners, the *Barr & Widen Credit Guide* also includes a list of real estate owners along with the assessed value of their property.

History & Genealogy has the 1901 credit guide in print; 1909 is available on microfilm. A few other years are digitized and available online, such as the 1897 guide on the [Mercantile Library website](https://dl.mospace.umsystem.edu/umsl/islandora/object/umsl%3A57780) <<https://dl.mospace.umsystem.edu/umsl/islandora/object/umsl%3A57780>>.
