A word of thanks

November ushers in the holiday season, providing opportunities to gather with friends and family, and occasions to step out of the daily routine to reflect on life's blessings. We in the Special Collections Department are thankful for many things and would like to take the opportunity here to acknowledge some of them.

■ **Volunteers**—The Department is fortunate to have a team of volunteers who assist researchers and index sources to make them accessible. We appreciate their constancy and commitment, as well as their time.

■ **Monetary donations**—We are thankful for the many financial contributions to the Department, which are used to purchase additional materials. Many donations are given by patrons who receive information through the Department's free lookup service.

■ **Genealogical partners**—The Department is grateful to the St. Louis Genealogical Society and the National Genealogical Society for their continued partnership and support, including donations of books and periodicals.

■ **Our patrons**—We are especially thankful to our patrons for their friendship and support. If it were not for you, the Department would not exist.

New St. Louis County maps in the Special Collections Department

Map sections showing St. Louis County near Creve Coeur Lake in 1857 (left) and 1868.

The Special Collections Department has recently acquired microfiche of two historical St. Louis County maps included in the Library of Congress Geography and Map Division. The maps are interesting, because (among other things), they provides snapshots of St. Louis County before and after the Civil War.

■ Map 406 MO, St. Louis County, 1857

Scale 1:67,500 (1 microfiche), lithographed and published by Schaerff & Bro. and surveyed by Gustavus Waagner.

The title printed on this map describes it as topographic, but it also indicates the location of homes and other buildings. The ownership of homes and land are sometimes listed but not consistently.

■ Map 407 MO, St. Louis County, [1856–1865?]

Scale 1:32,000 (4 microfiche), lithographed by Julius Hutawa and surveyed by Julius Pitzman.

While the Library of Congress identifies is as published 1856–1865?, other existing copies of this unique map indicate that it was probably actually published after the Civil War in 1868. The map shows ownership of land, not residency.

The maps are located in the microfiche carousel on the burgundy cabinets near the Reference Desk. A “St. Louis, MO Maps” tab at the top of the carousel storage page indicates their location within the carousel. The fiche can be viewed on microfilm reader/printer nos. 12 and 13. Both machines can make print copies.
